WOOF STOP BARKERY

139 Hunter Drive, Cranberry Twp. PA 16066
724.776.6863 www.woofstop.com

When it comes to rewarding your pet, you want to feed them nothing but the best. Instead of buying dog treats in mass quantities at a pet store, opt for organic treats from Woof Stop Barkery. All treats are homemade and baked fresh daily using the highest-quality, human-grade organic ingredients produced from farms in Pennsylvania, which ensure the freshest and healthiest dog treats possible. The barkery currently offers five flavors, including beef, chicken, peanut butter and honey, pumpkin and cinnamon and sweet potato and parsley. If your dog has food allergies, these treats are an excellent choice because the store provides wheat, corn, soy and gluten free options. "Woof Stop Barkery is a home-based business," explained owner Nancy Hans. "So when we say 'From our Home to Yours' this is exactly what we mean." Hans said she bakes organic treats because our dogs are family and we feed the best quality food to all members of our family. The barkery is happy to customize its products for any special occasion and has recently added decorated holiday cookies and birthday cakes to its repertoire. A half pound of treats starts at \$5.59, a pound at \$10.59, and a sample pounder for the dog who likes variety is \$13.99. Your dog will love these great tasting healthy treats and most likely give you one satisfied WOOF.
